DEVELOPING A PROPOSAL FOR A DIGITAL OUTCOME
Technical Information

AS 91877v1a (Digital Technologies 1.1) - Internal

Level 1

Credits 3

Reference: 1.1

Provider: Kura Solutions

Interpretation of Standard

Achievement Criteria

Achievement – Develop a proposal for a digital outcome

We have focused on helping learners understand how to develop a proposal that includes the proposed outcome statement, as well as the requirements, end users, and resources required for the outcome.

Achievement with Merit – Develop an informed proposal for a digital outcome

The focus here is on how feedback and research can be used to improve the proposal the learner has developed, as well as how the learner can ensure their proposal shows clear links between the requirements, end users, and resources required for the outcome.

Achievement with Excellence – Develop an effective proposal for a digital outcome

The focus for Excellence is on teaching learners how they can justify, by providing evidence, that their proposal meets the overall requirements of the outcome development project.

Resource Contents

- **Learner Workbook focusing on Achievement Grading and foundational learning and support resources include:**
  - Learner notes and practice learning activities for:
    - **Developing a Proposal** - What a proposal is and what it is used for; The different items that need to be included in a proposal.
    - **Improving and Justifying Your Proposal** - How to use research and stakeholder feedback to improve a proposal; How to show clear links

between the requirements, end users, and resources needed for the outcome; How to justify a proposal.

- o Worked examples focus on websites, databases, and computer programs. Where appropriate, full sample answers are given for these.

- o Templates for keeping records of research and stakeholder feedback are provided to assist learners.

- **Formal assessment including:**

  - o full assessment brief

  - o assessment marking schedule

  - o assessment sample answers for:

    - Achieved exemplar (extract) to provide an indication of the level and type of response expected in terms of a proposal that defines the proposed outcome statement (problem/issues, scope, purpose, context), as well as the requirements, end users, and resources required for the digital outcome. Assessor comments are provided which indicate what the learner would need to do for the step-up to Merit.

    - Merit exemplar (extract) to provide an indication of the level and type of response expected in terms of how the learner could demonstrate that they have gained and used information from research and stakeholder feedback to improve their proposal, as well as how the proposal could show clear links between the requirements, end users, and resources required. Assessor comments are provided which indicate what the learner would need to do for the step-up to Excellence.

    - Excellence exemplar (extract) to provide an indication of the level and type of response expected in terms of how the learner could justify how and why their proposal meets the overall project requirements for the outcome.

- **Teacher resource including teacher notes.**
